Plans are under way to visit the President of the Navaho Nation in Arizona in 2013 and we are planning on a mission trip to help the Red Indians in the North American Division. This project is in partnership with Professor John Youngberg from Southern Adventist University in Tennessee. NAD should be proud of such activities by lay people in their Division who are reaching to the physical, mental and spiritual needs of children globally. Thank you NAD for your support and partnership for His glory.
